

## Hydrogen Re-circulation Pump SCF-100H2

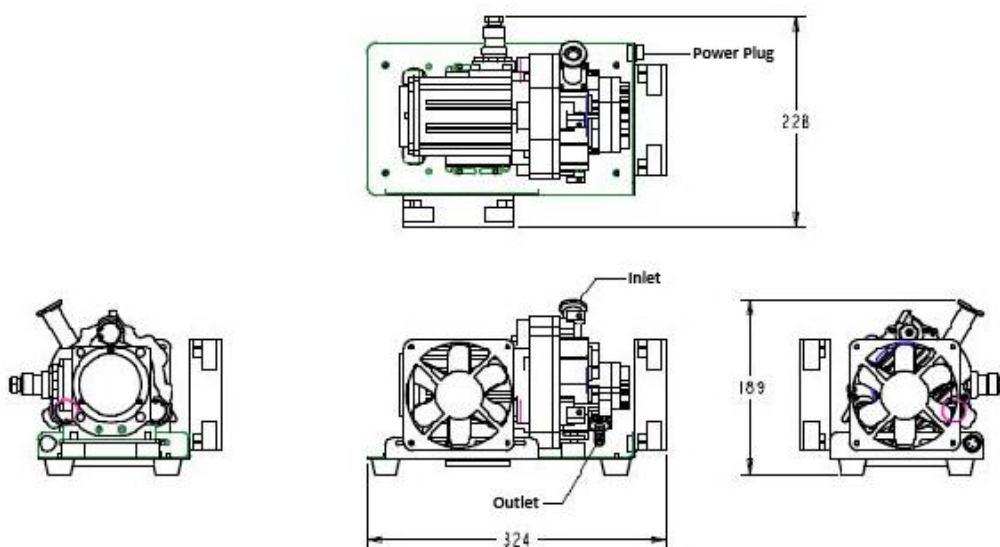

- Patented Floating Scroll Technology
- Oil free and no maintenance
- Compact size, light and ideal compression device for vehicles
- Particular design for hydrogen fuel cell system of renewable energy vehicles
- Suitable for 3kW to 5kW fuel cell system

### Specifications

Model	SCF-100H2
Compression Media	Hydrogen
Dimensions (H × W × L)	189mm × 228mm × 324mm
Weight	7Kg
Noise Level	<60 dB(A)
Motor	48VDC, 350W BLDC Motor
Life	10,000h
Leakage Rate	$1 \times 10^{-8}$ pa·m <sup>3</sup> /s
Cooling System	Air Cooling

### Dimensions (Unit: mm)
